Boy Scout Troop No. 40 Has Big Night At Mokena

Awards for achievements of the past six months were made to some 44 Boy Scouts, members of Mokena troop, No. 40 at the Spring Family Night, May 26, held in Carpenter Street school.

The occasion also witnessed acceptance into Eagle rank of three of the troop, Kenneth A. Corniels, James C. Konecny and Michael Shewski. Out of a registration of 46 the troop now has seven Eagle Scouts, acclaimed by scout officials as an outstanding achievement.

And the affair was further highlighted by the fact that Paul "Skip" Smith, scoutmaster at Mokena, has reached his 40th milestone in scouting activity. He began his scouting career in the Blue Island and Harvey areas and this was described and embellished by the appearance one nine of the 12 members, called the "Dirty Dozen", of his Sea Scouts of Blue Island.

"Skip's" life was reviewed thru the 40 years, including his service with the Seabees, up to the present. He was presented a 40-year pin, a tie clasp, a statue with a 40-year inscription, a scroll drawn by Asst. Scoutmaster Al Zlogar and signed by the committee members and scouts, a briefcase from the boys of the troop and a framed picture by Norman Rockwell dealing with scouting.

The award chairman, George Bills, read a newspaper clipping dates 25 years ago which told of the establishment of Troop 40 at Mokena. Many of the original number still reside in the area and one of the, Gordon Spless, is now president of the troop committee. Because of its registration for 25 consecutive years the members of Troop 40 are now entitled to wear a silver bar on their uniforms.

In the past two and a half years under the leadership of "Skip" Smith the troop has had 59 new scouts, 43 have advanced to second class, 21 to first class, 11 to Star, eight to Life and seven to Eagle. In this same period 226 merit badges have been awarded.

Besides the Eagle Scout awards the following were made at the Spring Night program: Tenderfoot, Ronald A. Olson, Robert P. Osuch, Michael G. Vondrasek, Roger Sippel, Eugene Golden, David Guth, Patrick Nelson, Dewitt A. Moses, John Showski; Second Class, Allan Albor and G. Eugene Bocker; First Class, Douglas Benson, Scot C. Stewart, Steven Ennis, Fredric A. Larimore, Wayne Stewart; Star, Timothy J. Rogal, John M. Sellers, William Zugenbuehler, Scot C. Stewart; Life, William Zugenbuehler. The Eagle Scouts were named previously.

FROST ON MAY 29 --UNUSUAL EVEN IN THESE PARTS

One never knows what spring will produce weather-wise in these latitudes but the frost that whitened lawns, flowers and roofs last Saturday morning was a surprise.

Frosts are frequently encountered up to mid-May but to get a heavy one as late as May 29 is quite unusual.

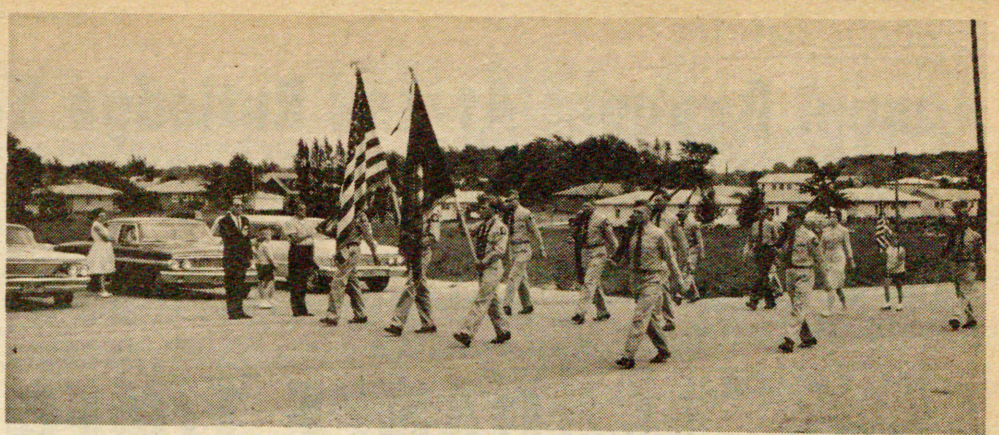

Near Yorkville a farmer with 75 acres of tomatoes employed two helicopters to keep the air moving above the field to prevent frost.

Two Suffer Injuries In Car Collision

Col. Frank O. Grey, Jr., 44, of the Grey Realty firm and president of the Mokena Chamber of Commerce, was still hospitalized Monday as a result of an automobile accident Thursday night on Wolf rd., just north of Hickory creek.

He was traveling north when a car driven by Mrs. Betty P. Lehmann 39, Warren drive, Mokena, southbound, allegedly cut in front of him to make a left turn into the driveway leading to the Weber home. Mrs. Lehmann was ticketed by county police on a charge of making an improper left turn. She was quoted by the officers as saying she didn't notice the other car.

Both drivers were alone and both taken to Silver Cross hospital, Joliet, for head injuries. Mrs. Lehmann was treated and released; Grey was admitted.

MEMORIAL DAY parade moves off at Mokena Sunday. Organized and led by William Martin post, No. 725, Veterans of Foreign Wars, the parade moved north on Wolf rd, from the VFW hall to St. Mary cemetery and then counter-marched, halting at Pioneer cemetery and then on to St. John cemetery. The roll of the dead veterans was called at each cemetery, volleys loosed by a firing squad and Taps sounded.

Mokena Boy Gets Mystery Image On Film

An 11-year-old sixth grade pupil at Carpenter Street school, Mokena, attempted to photograph some phases of the lunar eclipse last December. He did not get any pictures of the eclipse. In fact the roll of film he sent in came back from the developer entirely blank, except for a minute image appearing near a corner of what appears to be the last negative. Assuming there are Flying Saucers could this be one?

The image was a mystery to those who have looked at it on the film. It is still a mystery now that a much-enlarged print of it has been made. A reproduction of it appears on this page so the general public has a chance at the puzzle.

The boy is Mark Hedman, son of Mr. and Mrs. Richard Hedman, of Mokena. Mr. Hedman is general manager of the Boston Store of Joliet and Crest Hill.

When the picture was taken the family was living at Milwaukee. Using a box type camera, perhaps appropriately carrying the name of "Satellite," which uses a 127 roll film, Mark went out on the rear porch of the family's apartment and pointing it upward proceeded to expose a number of negatives.

As was stated previously the roll came back from the developer blank but for this one small image, about three-sixteenths of an inch in width.

Mark first thought of it as resembling a screw, he later recalled, but later discarded

the notion because there was no length to the object. Did he ever think of the image as that of a Flying Saucer? He had, Mark said, but the image was so small and looking at it on film it was difficult to make out any details.

He thought about the film quite a bit and several weeks ago brought it to school to show the teacher and members of the class. The film was brought to the attention of the school principal, Gene H. Morrall. With the permission of Mark's mother, Mr. Morrall brought the film to the Graphic Newspapers

office at Mokena to get an opinion from the photographic department as to the image and how it got on the film.

The department had no answers but enlarged prints were made. Most persons who view the prints say "Flying Saucer," when asked:

"What is it?"

One person, however, guessed it was a birthday cake, and a sixth grader from St. Mary suggested it was a gas burner.

"What about a Flying Saucer?" he was asked.

He shrugged, and spread

his hands:

"I don't know. I never saw one."

But Mark didn't take any picture of a birthday cake, a gas burner or a chandelier, he said.

The film is being sent to the research laboratory of the Eastman Kodak Co., at Rochester, N. Y., to see if they have any ideas on the subject.

Discuss Water Situation At Civic Assoc. Meeting

MRS. EDWARD HOVI
Telephone: 479-5740

The Arbury Hills Civic Association held their much discussed meeting over the water situation last week at the school. The all-purpose room was filled to capacity with interested residents.

The canvassing of Arbury Hills had not as yet been completed with approximately seventy homes still to be contacted. Preliminary results would indicate that people had decided on eliminating the formation of a Sanitary District, which left two alternatives; either incorporate as a village, or do nothing.

A committee was formed consisting of both those who want to do nothing and those who want to incorporate as a village. This committee of approximately fifteen persons will take all the petitions circulated and determine the indicated position having the most signatures. They were given two weeks to complete their work with about one week still remaining.

Two other committees were formed at the meeting. One committee is the beautification and park committee. This committee will work to clean up the two entrances to Arbury Hills and to try to obtain permission to rent vacant land from the owners in Arbury Hills to prepare as a small playground or park.

The third committee formed was the picnic committee. The picnic will be on one of two dates either Sunday, June 20 or Sunday, June 27. The exact date will be announced. The Picnic would be held in Mokena Community Park.

The First Nighters will meet at the home of Mrs. Will Way of 9522 West Hickory st. tonight, Thursday, June 3, at 8 p.m.

The Summit Hill Boy Scout Troop Number 10 will have their regular monthly newspaper drive this Saturday, June 5. Mokena Wins Round In Battle For Library

James Ennis, Mokena school superintendent, and Mrs. Rudolph Engelhardt, of the Mokena Book club, won a temporary stay from the order banning book loans to the Mokena library from the state library.

The Mokena representatives met with officials of the state library at Springfield to request continued book loans for the Mokena library. The request was granted for an interim period while plans are made for Mokena and surrounding areas to become a part of the proposed new state-wide library system.

This plan, it was explained, is devised to help areas which do not have the broad tax base of larger municipalities, to provide better and more adequate library service with the aid of state

Grove system with two years of teaching experience, will teach kindergarten, and Mrs. Joyce Swain, a graduate of Indiana Central college, who taught the past year in the Lafayette (Ind.) school system, will teach third grade.

The board will hold its next regular meeting next Tuesday night, June 8, at 7:30 o'clock.

and federal funds.

The Mokena Book club, which operates the present library with voluntary help and financial assistance from the Mokena Lions club, has realized for several years, it was said, that the demands for expanded library service have outgrown its capacity to meet the community's needs.

The group has appointed a committee to study the proposed new system and make plans to enter it as a participating library. Marcia Miller, advertising executive, and Mrs. Engelhardt are co-chairmen of the committee. Other members are Jean Berg, president of the Book club, Beatrice Olson, librarian, Sheila Wellman and Marcella Lehmann. Supt. Ennis is consultant and co-ordinator. As plans develop the committee will be enlarged.

Meanwhile Mrs. Wellman and Mrs. Engelhardt are attending the Public Library Institute this week at DeKalb.

Library service for all is the theme of the institute and the plan for public library development in Illinois will have an important place on the program.

PATSY BELZ - Mr. and Mrs. Edward Belz of Frankfort announce the approaching marriage of their daughter, Patsy Belz, to Laurance Lane, son of Mr. and Mrs. Walter Lane of Frankfort, on July 10 at 7:30 p.m. at St. Peters United Church of Christ.

The reception will be immediately following the ceremony in the church parlors. Invitations are being sent, but all relatives and friends are invited.

Patsy will be a June graduate of Lincoln-Way high school and Laurance is employed with the Joyce Trucking Company of Chicago Heights.

The couple are planning to live in Connecticut Hills, Frankfort.

Tax Bills Show Increase

The 1964 tax rates are generally up in Will county and Frankfort, and Mokena, and New Lenox are no exception.

Residents of the village of Frankfort will have a rate of \$4.581 as compared to \$4.219 a year ago, an increase of 36.2 cents per \$100 of equalized assessed valuation. The village will get .658 cents, the grade school, \$1.584 and Lincoln-Way high school \$1.655. The remainder of the total rate is made up of county, township, road and bridge, forest preserve, fire protection.

At Mokena the total rate is \$4.446 per \$100 equalized assessed valuation as compared to \$4.196 a year ago, a raise of 25 cents. The village gets .481 cents and the grade school \$1.515. The high school and other rates are the same. Mokena, however, has a park district as well as a fire protection district.

Persons living outside of Mokena but within the park and fire districts can subtract the village rate of .481 cents to get their total tax rate. Those living outside the corporate limits of Frankfort but within that fire protection district will subtract .658 cents to get their rate.

In the village of New Lenox the total rate is \$4.471 for 1964 as compared to \$4.087 last year, an increase of 38.4 cents. The village gets .762 cents, the grade school \$1.356 and the high school tax is the same as in Frankfort and Mokena, \$1.655. Outside the incorporated area and within the Lincoln - Way school district the rate will be less the village tax of .762 cents. A small part of New Lenox township is in the Mokena park district and a portion of the township is in the Joliet township high school district. In that section the high school tax will be \$1.365.

Because of the rent to be paid on the new court house and the county's mapping and platting program the county tax is up 6.6 cents, from 17.3 to 23.9 cents. The forest preserve tax is one cent.

The School of Medical Technology at Silver Cross Hospital has been approved for university credit by Northern Illinois University. This program which will become effective in September, 1965, makes it possible for students living in the Joliet area who have graduated from Joliet Junior College to receive a bachelor of science degree with only one year spent away from home. Graduates of any accredited college will be accepted by the school of technology, however.

They attend the university for their third year of training followed by one year of training in the school of medical technology for which they will receive a year of senior college credit. The Silver Cross School is one of three hospital schools whose clinical laboratory work will be accepted towards a B.S. degree by the university.

Miss Carol Tomazic was recently appointed teaching supervisor of the Silver Cross school. She has a B.S. in biology and a master's degree in education. She is also registered as a medical technologist.

Audiovisual aids recently purchased for the school include a complete set of film strip-record seminary developed by the American Society of Clinical Pathologists and a programmed teaching machine to supplement lectures and laboratory instruction. Students are paid a stipend while in laboratory training.

Laboratory publishes a bulletin on the school describing courses and requirements for admission, which will be mailed on request to prospective students. Applicants may have a personal interview with the director of pathology and the school of medical technology, Dr. Frederick C. Bauer, by appointment.

THE ILLINOIS

AND MICHIGAN CANAL

Chicago is and always has been the key to the Middle West. The Potawatomi, Chippewa and Ottawa Indians were but the last of a long succession of Indian tribes to hold this region because of its strategic importance. Louis Jolliet, returning with Father Marquette from a voyage of discovery in 1673-74, reported to the governor in Montreal that, in order to travel by boat from the Great Lakes to the Gulf of Mexico, it would be necessary to make but "... one canal intersecting only half a league of prairie in order to enter from the foot of the lake of the Illinois (Lake Michigan) into the river of St. Louis (Illinois River)."

By 1803, the fur trade in the Northwest Territory had become so important that Fort Dearborn was established. The war of 1812 emphasized the necessity of a route over which military and naval forces and supplies could be readily transported to the northern frontier. In 1816, an Indian treaty granted to the United States a strip of land 20 miles wide along the route of a proposed waterway from the mouth of the Chicago River down the DesPlaines and Illinois river valleys. The bill for the admission of Illinois as a state was amended to shove its boundary, from an east and west line drawn thru the southerly bend of Lake Michigan, north to its present location--solely because, then, the proposed canal might be entirely within and constructed by the new state--thus serving, with the Erie Canal then then building, to link the Atlantic Ocean with the Mississippi valley.

In 1822, Daniel P. Cook and Jesse B. Thomas, respectively congressman and senator from Illinois, obtained from the federal government a grant of the public domain consisting of a strip of land for the proposed canal and 90 feet on each side of it. In 1829, Cook (for whom the County of Cook was named) was also instrumental in obtaining passage of an act by which the federal government donated to Illinois, for the purpose of financing the construction of the canal, alternate sections of land for a distance of five miles on each side of it.

A canal commission was appointed, consisting of Gen. William F. Thornton, Col. Gurdon Saltonstall Hubbard and Col. William B. Archer, and in 1829 the towns of Ottawa and Chicago were laid out. July 4, 1836, with a great celebration at Canal Port, the first spadeful of dirt was dug and the job begun. Due to floods, labor scarcity and the panic of 1837, little progress was made before work was abandoned in 1842. Resumed in 1845, the canal, 96 miles long from Bridgeport (just east of Ashland Ave. at about 28th St.) to Peru - LaSalle, was completed and opened for traffic in 1848. The first boat to pass thru the entire length of the canal was the "General Thornton" of LaSalle, with a cargo of sugar.

Immediately the canal became a tremendous factor in the development of Chicago and northern Illinois. The produce of the Illinois valley, formerly shipped to St. Louis, began to pour into Chicago. Merchandise from the east, via the Erie Canal and the Great Lakes, poured down the canal to the river towns and from them to the settlements rapidly being extended northward and westward. In 1830 there were only 1310 people in that part of Illinois north of Peoria. By 1850 there were 125,708, largely concentrated in Chicago and along the waterway.
